

Digital Artist

We are looking for a Graduate or Designer.

The successful candidate must be able to demonstrate their creative abilities and contribute ideas to the projects they are working on within a fast paced creative environment. The digital artist will be required to produce intuitive interfaces, motion graphics, that make online and offline experiences, visually appealing, enjoyable, easy and fulfilling. Attention to detail and pride in your work is a must.

Scott Wilson has been working alongside French software developers and market leaders in 3D technology, Bionatics, to produce 'LandSIM3D' for the past two years. Scott Wilson's Digital Media Team has made groundbreaking steps in this field. This pioneering software will revolutionise the design industry offering a great opportunity for architectural, engineering and urban planning consultants to visualise geographically large schemes in an easy and convenient manner.

A 3D Walkthrough and online experience for the New Downe Hospital. The team is working alongside the architects and hospital interior designers in the development of the interior. Designs of new features and influence in lighting, bespoke furniture, and materials within the main atrium space, coupled with the innovative video production, allowed the design team to present a creative concept to their client.
